

# PARTNERSHIPS & MARKETING

**L**ively Productions specializes in developing customized creative content. We provide a wide array of partnership opportunities. Please see below for our core offerings, keeping in mind that these options are flexible based upon your needs.

## New Media Groups

For new media companies such as blog networks and online humor sites, Lively Productions creates Blogologues using material specifically culled from your content and/or the content of partner sites.

Lively Productions also offers cross-marketing opportunities such as competitions and/or crowd-sourcing for admission into the next Blogologues.

## Corporate Entertainment

For corporations, Lively Productions crafts thematic shows based upon your field. These can take place in a rented theater or as part of a larger event for your company (e.g. holiday parties, employee trainings, etc.)

## Brainstorms

Like our show, but not sure how Blogologues fits with your company? Lively Productions will brainstorm and leverage our expertise to devise creative solutions for your organization.
